# Jay Chiehen Liao

M: +886-988818967 | jay.chiehen@gmail.com | github.com/jayenliao | rpubs.com/d920056

3+ years of experience in **Data Science** & **Machine Learning** • Proficient in **Python** & **R** programming • 10+ AI/ML **competitions** 5+ years of experience in Data Analysis & Statistics • Git, Linux, GPU, GCP • 10+ academic presentations in various domains • Skilled in communication, model explanation, and problem-solving • Interdisciplinary backgrounds

# **EDUCATION**

#### **RENNES SCHOOL OF BUSINESS (RSB)**

MASTER IN DATA & BUSINESS ANALYTICS

Sep 2021 - Apr 2022 | Rennes, France

• Graduation Project: Using Text Analysis to Explore the Role of Standard Essential Patents in Information and Communication Technologies and Artificial Intelligence

## NATIONAL CHENG KUNG UNIVERSITY (NCKU) MASTER IN DATA SCIENCE (GPA: 4.25/4.30)

Aug 2020 - Jul 2022 (expected) | Tainan, Taiwan

- The  $1^{st}$  Place, Academic Performance of The  $1^{st}$  Year
- Thesis: Learning Graph Structures from Structured and Unstructured Data for Downstream Tasks

DOUBLE BACHELOR IN STATISTICS AND PSYCHOLOGY Sep 2015 - June 2020 | Tainan, Taiwan

# **WORK FXPERIENCE**

#### **NETWORKS & AI LAB, NCKU**

RESEARCH AND TEACHING ASSISTANT

Aug 2020 - present | Tainan, Taiwan (Hybrid)

- Research topics: Machine learning with graphs, graph neural network (GNN), deep learning for tabular data.
- Managed Linux servers with GPUs.

#### **HEALTH BEHAVIOR LAB, NCKU**

RESEARCH AND TEACHING ASSISTANT

Jan 2017 - Jul 2020 | Tainan, Taiwan

- Research topics: Social networks & sexually transmitted infections, health behavior interventions with technology, CATEGORIES 2022 (E.SUN BANK) adolescent mental health.
- Data analysis with R & Python for 5+ projects.

# **SKILLS**

### **TECHNICAL SKILLS**

**PROGRAMMING** Python • R

Machine Learning PyTorch • Scikit-Learn • NumPy **GRAPH NEURAL NETWORK** NetworkX • PyTorch-Geometric **DATA VISUALIZATION** ggplot2 • Matplotlib • Seaborn DATA MANAGEMENT MySQL VERSION CONTROL Git **CLOUD COMPUTING** Google Cloud Platform **OPERATION SYSTEMS** Linux • macOS • Windows

#### **LANGUAGES**

ENGLISH TOEIC 925/990 Mandarin/Chinese Native

## KFY PROJECTS & AWARDS

Predictive Modeling for 14-day Unplanned Hospital Readmission Risk by Using Machine Learning Algorithms BMC Medical Informatics and Decision Making (2021)

- Constructed ML models with promising performance to predict patients' readmission.
- Figured out influential features with model explanations.

My ROLES: Co-first author of the paper • Model constructor **SKILLS USED:** Python • R • Catboost • Feature Engineering

A Mobile App (UPrEPU) to Monitor Adherence to Pre-Exposure Prophylaxis in Men Who Have Sex with Men: A Protocol for a User-Centered Approach Mobile App Design and Development

THE JMIR RESEARCH PROTOCOLS (2020)

My Jobs: Conveyed public health rules with pseudo-codes to communicate with development engineers • Data cleaning SKILLS USED: Pseudo-code • Python • R

#### **TOP 1** out of 401 teams

#### CHUNGHWA POST BIG DATA COMPETITION 2019

- Established ML models and proposed commercial solutions from the big data (>30GB) to reduce failed delivery rate (reduced about 65% eventually).
- Evaluated the proposed system in terms of ML performances, flexibility, and estimation of cost reduction (USD 376K and 44.8K hrs per year in Taipei City).

My Roles: Leader • Model constructor • Presenter **SKILLS USED:** Python • R • GBDT • Visual machines

**TOP 3** out of 859 teams

RECOMMENDATIONS OF CREDIT CARD SPENDING

**SKILLS USED:** Python • R • GBDT • Time Series

#### **TOP 8**

BUSINESS MODEL AND BIG DATA ANALYSIS ARTIFICIAL INTELLIGENCE COMPETITION 2020 (TAISHIN BANK)

My ROLES: Data analyst • Presenter

Skills used: Python • R • Xgboost • GNNs

#### **TOP 25%**

AI CUP FALL 2020 - MEDICAL INFORMATION DE-IDENTIFICATION (CSIE, NCKU)

**SKILLS USED:** Python • NLP • Transformer

**EXCELLENT AWARD** CERTIFICATE OF STATISTIC ANALYSIS (THE CHINESE APPLIED STATISTICS ASSOCIATION)

ADVANCED AWARD COMPETITION OF STATISTICS (NCKU)
